Mattreases for Plate Glass

The mattreases whereon we sleep are by no neams the only ones. There is for instance the mattreas that is placed in wagons for the conveyance of plate glass in safety. These wagon mattreases are made of curled hair. They are of a thick ness surveyly greater than that of the coverlet that is known as a "comfort with." The extended of plate glass tamportation require that these mat breases be constructed with exceeding any where in the mattreas might purpose sufficient to cause the breakage of the planes that reads upon it. In the event of two plates of glass reating upon that hump at the same lime still greater danger to the glass is courted. These plate glass mattreases cost eccording to size from \$60 to \$75. The mere remaining of such a mattrease may cost from \$20 to \$25.—Her por Wookly.

## An Advertisement In The Eagle Will Pay You. Try It

## GRANGE MIXTURE IS THE BEST

First o all, we ask you to pardon this letter's being printed in this shape. The expense of writing a personal letter to-the best farmers in South-east Ala, we found, would be more than we can afford. If they will take time to read it, we feel the time will not be wasted. It is not a begging letter. We have found that it is better for our interests not to beg farmers to buy our brands, but to make our goods so that we can really feel that we do not want any one to buy unless he wants to. And so-this is not a begging letter.

Don't buy it unless you really feel that you want the best. However, the purpose of this advertisement is to call the attention of the farmer who needs the best, to the value of GRANGE MIXTURE. It is our idea of an honest brand. We put into it what we know about guano-not what we think, guess or estimate-but what we know. For a few cents above the price of ordinary guano, you get double value for the difference-plain a daylig'it. The plant food formula of GRANGE MIXTURE is fixed to suit the chemica needs of the soils of this section itself.

It is not merely our idea of what we can make people think a good tertilizer ought to be. As developed by the Dothan Guano Co., after many years of experimental wor k it stands the test of time-that hardest test. We did not make these trial experiments at the risk and expense of our customers. We did not take on every new fangled material which bobbed up because it was cheap. We stuck to that which we did know; and year by year our sales steadily increase. The perfection of GRANGE MIXTURE in producing increased crop results is positively unequaled by any other.

We do not only believe-we know-it is as perfectly adapted to our soils and crop needs as any you ever bought before at any price. It will unfailingly outlast any other kind. This statement has been proved over and over again many times and it is easy enough for you to prove it for yourself. Don't be misled into buying something claimed be "th same thing." You can teach a parrot to say, "Just as good" but he won't know what he is talking about. Our trade mark protects you. This year, be sure the circle with the words "Makes Green Fields" is on the bag.

Talk about testimonials? Why, we receive every shipping season telegrams and letters by the score from the very best dealers and planters in this or any other country, similar to this: "Why don't you send us some GRANGE MIXTURE? Our customers will not have anything else' and "For goodness sake ship us another car of GRANGE MIX-TURE. We are entirely out and people went back with empty wagons today because we didn't have GRANGE MIXTURE." As for testimony from the actual users; it is constantly coming to us, only day before yesterday, we got this one (unsolicted) from Dr Dalton. Anybody who knows him, knows that he always tells just what he means and thinks. Read what he certifies to;-

Taylor, Ala.

Dothan Guano Co., Dothan, Ala.

Gentlemen:-

This is to certify that GRANGE MIXTURE gave me by far the best results last year than any other brands-notwithstanding I used several other brands. as being the best guano that the farmer can use for this section. I shall use no other this year. If I had used all GRANGE MIXTURE last year, I would have made ten more bales of cotton.

C, C, DALTON, M. D.

Steel Middle breaker

Mr. Uosea Wilson, one of the largest and most progressive farmers in South-East Alabama, tells us that after two years thorough test, he finds the TRUE BLUE MIDDLEBREAKER far ahead of any plow he has ever used. With two mules in any kind of land, clean or stumpy, he can double in his plowing and save one hand.

Mr. Wilson is using about twelve 1121 of these plows on his large farm now, and says that he will need more, as the TRUE BLUE line of sleel plows are the lightest, strongest and cheapest plows he has ever used, and he has bought nearly all kinds. Mr. Wilson's experience is the same as many of our customers who use BLOUNT'S TRUE BLUE line They are the best and cheapest.

Ask your neighbor who uses BLOUNT'S TRUE BLUE line or, call at our store and let us show you. We keep a full line of Middle breakers and turn plows and all repairs for them, Orders by mail or telephone promptly filled,
